

MARCH

garden planning checklist

PLANT OF THE MONTH — camellias —

Planting: Get a head start on spring by planting shrubs and perennials now.

Mulch: Refresh your landscape with a layer of mulch. It looks great and helps your plants thrive.

Repot Houseplants: If your houseplants are getting rootbound, now's the perfect time to repot. Just move up one pot size for best results.

Transplant: Thinking about rearranging your garden? Small shrubs and perennials transplant well at this time.

Discover New Ideas: Stop by our Spring Showcase March 6-15th, for seminars and workshops packed with inspiration (full list online).
